FOR A REAL SOLUTION TO CLIMATE CHANGE:
CARBON FEE AND DIVIDEND

WWW.CITIZENSCLIMATELOBBY.ORG
Carbon Fee & Dividend

1. Place a steadily rising fee on the CO$_2$ content of fossil fuels.
2. Give all the revenue from the carbon fee back to households.
3. Use border adjustments to avoid penalizing U.S. businesses and workers.

It's simple. It's transparent. It has bipartisan appeal. It's good for the economy and even better for the climate.
